SUBCHAPTER 200. ESTABLISHING AND CLOSING COLLEGES AND COLLEGE SITES

1B SBCCC 200.1 ESTABLISHING COLLEGES

A new college operating under Chapter 115D will be called a community college. An application for a new college must come from the county commissioners in the proposed administrative area. The application shall be sent to the state board which may direct the department to cooperate with the applicants in making a survey to determine the following:

- (1) Do the educational needs of the area justify the educational services proposed?
- (2) Can the existing public and private post-secondary institutions in the area meet the needs demonstrated?
- (3) If unmet educational needs exist that could be met by the proposed institution, will the projected student enrollment justify the proposed institution? As a standard, the projected enrollment should be a minimum of 400 full-time equivalent students in curriculum programs within three years after establishment.
- (4) Can adequate local current and capital expense funds be supplied? As a standard, the level of local current operating fund support should be equal to the existing median support for the institutions in the community college system.
- (5) Will the local public school tax support be affected adversely by the local support required for the proposed institution?
- (6) Do the boards of commissioners and boards of education in the area support the application?
- (7) Are the facilities proposed to house the new institution adequate?
- (8) Does the application fit the policy of reasonable geographic distribution in order to meet statewide needs? As a standard, no new institution shall be established within 25 miles of an existing institution within the community college system, except where urban population density or natural barriers become overriding considerations.
- (9) Will adequate state funds become available to support the proposed new institution?
- (10) Can the immediate needs of an area best be served by an extension unit operating under contract with an existing institution?

When the survey is completed, the Department will report to the state board and make its recommendation(s). Representatives of the college and board(s) of county commissioners may appear before the State Board and make a presentation at the meeting that the Department's recommendation is considered. The State Board shall make its recommendation(s) for the establishment of a new college to the General Assembly, including a request for additional funds if needed.

SUBCHAPTER 400. SALARIES AND BENEFITS

1C SBCCC 400.94 ESTABLISHING PAY RATES

- (a) The monthly and annual salaries or hourly rates of pay from state funds for full-time and part-time personnel in community colleges shall be established by the college president and approved by the board of trustees within the budget approved for the college by the State Board except that the state-funded portion of the president's salary shall be approved by the system president in accordance with the state salary schedule for presidents. Salary increases shall be granted annually or upon promotion to a higher position. Legislative increases shall be granted according to requirements set forth by the General Assembly. The State Board shall adopt a minimum and maximum amount of state funds which may be paid to any individual working in a college. Individuals shall be paid no less than the minimum and not more than the maximum amounts at a level determined by the salary approving authority at the college.
- (b) All hourly, monthly, and annual salaries for full-time or part-time personnel shall be certified by the president of the college and reported to the System Office.
- (c) The State Board shall adopt a state salary schedule for presidents in the system. The System President shall determine the proper placement of a newly-hired president on the state salary schedule based on the size of the college and the individual's years of eligible experience in accordance with the following provisions:
- (1) For the purpose of this Paragraph, an increment is defined as an additional year of experience on the state salary schedule adopted by the State Board.

- (2) College size shall be determined by the total FTE served and reported in the enrollment reports furnished the system office.
- (3) A president of a post-secondary education institution shall be allowed increments for prior experience on a year-for-year basis for a maximum of 20 years.
- (4) An executive vice president, vice president, other senior administrator of a post-secondary institution, a state-level administrative department, or a superintendent of a public school system may be given increment experience on the president salary schedule upon recommendation of the board of trustees and approval of the System President as follows:
 - one increment for three years of actual experience;
 - two increments for five years of actual experience;
 - three increments for seven years of actual experience;
 - four increments for 10 or more years of actual experience.

A president, chief operating officer or chief financial officer of a business or industry may be granted increment experience as provided in this Part.

- (A) Progression from the minimum or "0" step to the midpoint or step "20" shall be based on additional years of experience;
 - (B) Advancement toward grade maximum after attaining the midpoint of the grade shall be based on merit increases as recommended by the local boards and within state allocations available;
 - (C) Newly-hired presidents shall not receive salary increments for any years in which a salary freeze was in effect for community college presidents.
- (5) Changes in grade levels:
 - (A) Presidents with 0 to 20 years of eligible experience moving to another grade shall be placed in the new grade's range at the current experience level; and
 - (B) Presidents with greater than 20 years of experience moving to a lower grade will receive a salary adjustment only if the current salary exceeds the new salary grade's maximum salary limit, in which case, the salary will be adjusted to the maximum of the new grade.
 - (6) Total salary compensation from all sources shall not exceed the maximum for the salary grade as determined by the college's size. Salary compensation is

defined as those monies paid from whatever source for which no documentation or expense is required, or which is treated as salary for retirement benefit purposes.

(7) An interim or acting president's salary will be set at the step of the salary grade for the respective college. Years of eligible experience will be awarded up to 20 years for placement on the appropriate step. However, a board of trustees may grant a college employee appointed interim or acting president a 10 percent salary increase instead of placing the employee on the president's salary schedule.

(8) Presidential salary grades shall reflect the following:

FTE	Minimum	Midpoint	Maximum
-----	---------	----------	---------

These data shall be increased annually based on legislative action and reviewed no less than every three years to assure their continued national competitiveness.

(d) Post-secondary institution as used in this Rule means a junior college, community college or four-year institution of higher education.

1C SBCCC 400.95 CONTRACT BUY OUTS

(a) Contracts entered into by boards of trustees may not be bought out with state funds, unless required by a court of competent jurisdiction. The parties entering into a contract are responsible for implementing the contract. Therefore, should it become necessary to terminate employment prior to the expiration of a contract and if it is necessary to buy out the contract, such payment shall not be paid from state funds.

(b) An individual in a state-funded position whose employment is terminated prior to the expiration of a contract may not be re-employed by the college to offset the lost wages which the employee would have received under the contract. All efforts shall be made to prevent terminations which require the buying out of contracts.

- (c) If an individual whose employment contract has been terminated enters into another employment agreement with the college, such employment shall be for a salary commensurate with the services being performed. Such employment shall not be to provide the employee the same level of compensation he or she would have received under the former contract.

1C SBCCC 400.96 EDUCATIONAL LEAVE WITH PAY

- (a) The term "educational leave" refers to the release from duties or time normally required of a full-time employee in carrying out the full load of responsibilities assigned to further his education.
- (b) Each local board of trustees shall adopt an educational leave policy for employees. State funds may be used to pay employee salaries while they are on educational leave if the following criteria are incorporated in the local board of trustees' policy:
- (1) The employee is employed full-time on a 9-, 10-, 11-, or 12-month basis.
 - (2) The employee shall be under contract to the college for the next fiscal year.
 - (3) Educational leave shall not exceed one semester per fiscal year.
 - (4) An employee who fails to honor the contract stipulated in Subparagraph (b)(2) of this Rule shall be required to repay the amount expended for the educational leave. If the employee fulfills a portion of the contract before failing to honor the contract, repayment shall be based on a pro-rata portion (e.g., if an employee works 4 months of a 12-month contract, a repayment of 66.7 percent of the educational leave would be required).

1C SBCCC 400.98 LONGEVITY PAY PLAN FOR COLLEGE PERSONNEL

- (a) Employees of institutions in the community college system assigned to permanent full-time or permanent part-time positions shall receive longevity pay if the employees meet the requirements of total qualifying service set forth in this Rule.
- (b) Total service for the longevity pay plan is based on a month-for-month computation of permanent full-time and permanent part-time (20 hours or more, but less than full-time) employment with:
 - (1) an institution in the community college system or a school administrative unit regardless of the source of salary and including state, local or other paid employment.
 - (A) Employment for a school year is equivalent to one full calendar year (credit for a partial year is given on a month-for-month basis).
 - (B) In no event will an employee earn more than a year of total service credit in a 12-month period.
 - (C) If an employee is in pay status (working, exhausting vacation or sick leave, or when on workers' compensation leave or is on authorized military leave) for one-half or more of the regularly scheduled workdays in a month, credit shall be given for the entire month.

(2) departments, agencies, and institutions of the State of North Carolina, (e.g., State Department of Administration, State Revenue Department, University of North Carolina, State Department of Community Colleges, State Department of Public Instruction).

(3) other governmental units which are now agencies of the State of North Carolina (e.g., county highway maintenance forces, War Manpower Commission, judicial system).

(4) county agricultural extension service.

(5) local mental health, public health, social services or civil preparedness agencies in North Carolina, if such employment is subject to the State Personnel Act.

(6) authorized military leave.

(A) Credit for military leave is granted only for persons who were employees of the State of North Carolina or other agencies listed in Paragraph (b) of this Rule who were granted leave without pay:

(i) for a period of involuntary service plus 90 days or for a period of voluntary enlistment for up to four years, plus 90 days, so long as they returned to employment in a covered agency within the 90 days; or

(ii) for a period of active duty for service, alerts, or required annual training while in the National Guard or in a military reserve program.

(B) Employees who enlist for more than four years or who re-enlist shall not be eligible for military leave.

(C) Employees hospitalized for a service-connected disability or injury shall be granted additional leave without pay for the period of hospitalization plus 90 days or for 12 months, whichever is shorter. The hospitalization must commence before reinstatement into qualifying service for the provisions of this part to apply.

(c) Total service for the longevity pay plan does not include:

(1) Temporary service, that is, service by an employee who works in a temporary position, or who is working temporarily in the absence of a permanent employee on leave of absence, except that temporary service of employees of the General

Assembly will be counted and the full legislative terms of the members. Service of legislative interns and pages will not be counted.

- (2) Periods of out-of-state employment with other states, schools, colleges or universities.
 - (3) Periods of employment with agencies of the federal government.
 - (4) Periods of military service other than those categories described in Subparagraph (b) (6) of this Rule.
 - (5) Periods of employment for employers other than the State of North Carolina even though credit in the North Carolina retirement system has been purchased for such employment.
- (d) An employee assigned to a permanent full-time or permanent part-time position is eligible for longevity pay only after the date the employee has completed ten years of total service with a community college, a school administrative unit or an agency.
- (e) Annual longevity pay amounts are based on the length of total service to agencies, community colleges, and school administrative units as designated in Paragraph (b) of this Rule and a percentage of the employee's annual rate of pay on the date of eligibility.
- (1) Longevity pay amounts are computed by multiplying the employee's annual base or contract salary rate as of the eligibility date by the appropriate percentage, rounded to the nearest dollar, in accordance with the following table:

Years of Total State Service	Longevity Pay Rate
10 but less than 15 years	1.50%
15 but less than 20 years	2.25%
20 but less than 25 years	3.25%
25 or more years	4.50%

- (2) Longevity pay is not considered a part of annual base or contract pay nor is it to be represented in personnel and payroll records as a part of annual base or

contract salary. (Salary increases effective on the same date as the longevity eligibility date shall be incorporated in the base pay before computing longevity).

- (f) The payment of longevity pay to eligible employees is automatic. Payment shall be made in a lump sum, subject to all statutory deductions, during the monthly pay period in which the employee has satisfied all eligibility requirements.
- (1) Eligible employees on worker's compensation leave shall receive longevity payment in the same manner as if they were working.
 - (2) If an employee retires, resigns, dies, or is otherwise separated on or after the date of becoming eligible for a longevity payment, the full payment shall be made to the employee or to the estate of the employee in case of death.
 - (3) If, on the effective date of this policy, an employee has completed the qualifying length of service but is between eligibility dates, longevity payment will be made on the next longevity anniversary date.
 - (4) If the employee has worked part but not all of one year since qualifying for longevity payment, the employee shall receive a pro-rata payment in the event of:
 - (A) separation from the institution;
 - (B) change in employment status to temporary part-time, or to a position not covered in this policy.
 - (5) If an employee separates from a community college and receives a partial longevity payment and is employed by another community college, school administrative unit, or state agency, the balance of the longevity payment shall be made upon completion of additional service totaling 12 months for an employee having a 12-month period of employment, or upon completion of a lesser term for an eligible employee on less than a 12-month period of employment. The balance due is computed on the annual or contract salary being paid at the completion of the requirement.
 - (6) If an eligible employee at the time of separation has a fraction of a year toward the next higher percentage rate, payment shall be based on the higher rate; however, the basic eligibility for longevity requirement must have been satisfied before this provision can apply.

- (7) Leave without pay in excess of one-half the work days in a month (with the exception of authorized military leave and worker's compensation leave) will delay the longevity anniversary date on a month-for-month basis.
- (g) Longevity pay shall be made from the same source of funds and in the same pro-rata amounts from which the employee's regular annual salary is paid (e.g. state, federal, local funds).
- (1) Local trustees may provide longevity payments to employees from other than state allotted funds.
- (2) Only personnel employed in positions allotted by the formula in Rule 1H SBCCC 200.87(d) of this Subchapter shall receive longevity pay from the longevity reserve. An additional allocation will be made for this purpose.
- (3) Employees in state-allotted positions paid with state-allotted funds other than regular formula allotments shall receive longevity pay from the same source of funds as their salary payment.
- (4) Employees paid with the following specified funds shall receive longevity pay from these respective sources:
- (A) Adult basic education funds,
 - (B) Human resource development funds,
 - (C) New industry funds,
 - (D) JTPA funds,
 - (E) Special allotment funds,
 - (F) Federal vocational educational funds, and
 - (G) Local funds.
- (h) The president of each community college shall:
- (1) Determine the quantity of qualifying service and the longevity anniversary date for each eligible employee.
 - (2) Furnish to the state board, on forms prescribed by the Department, data necessary for a determination of the cost of the longevity pay plan from state funds.
- (i) The President of the Community College System shall determine the total cost of the longevity pay plan from data submitted by each community college. If funds are not

adequate to pay longevity rates established under this Rule, the President of the Community College System shall submit a budget revision to the State Budget Officer requesting additional funds from other available sources within State Aid.

1D SBCCC 200.3 PROGRAM CLASSIFICATION

The following criteria are used for classifying the programs offered in the North Carolina Community College System.

(1) Curriculum Programs:

- (a) A curriculum program is an organized sequence of courses leading to an associate degree, a diploma, or a certificate. All curriculum programs are designed to provide education, training, or retraining for the work force.
 - (i) Associate degree programs are planned programs of study culminating in an associate in applied science, associate in arts, associate in fine arts, associate in science, or associate in general education degree.

- (A) The associate in applied science degree programs are designed to prepare individuals for employment. These programs involve the application of scientific principles in research, design, development, production, distribution, or service.
 - (B) The associate in arts, associate in science, and associate in fine arts degree programs are designed to prepare students for transfer at the junior level to institutions offering baccalaureate degrees.
 - (C) The associate in general education degree programs are designed for students who desire a general liberal arts education.
- (ii) The diploma programs are designed to provide entry-level employment training. A diploma program may be a stand-alone curriculum program title, or a college may award a diploma under the college's associate in applied science degree curriculum program for a series of courses taken from the program of study and structured so that a student may complete additional non-duplicative coursework to receive an associate in applied science degree.
 - (iii) The certificate programs are designed to lead to employment or to provide skills upgrading or retraining for individuals already in the workforce. A certificate program may be a stand-alone curriculum program title, or a college may award a certificate under the college's associate degree or diploma curriculum program for a series of courses taken from the program of study.
- (b) Developmental Education programs consist of courses and support services which include diagnostic assessment and placement, tutoring, advising, and writing assistance. These programs are designed to address academic preparedness, workforce retraining, development of general and discipline-specific learning strategies, and affective barriers to learning. Developmental courses do not earn credit toward a degree, diploma, or certificate.
- (2) Continuing Education Programs:
- (a) Occupational Extension courses consist of single courses, each complete in itself, designed for the specific purposes of training an individual for full- or part-

time employment, upgrading the skills of persons presently employed, and retraining others for new employment in occupational fields.

(b) Community Service:

- (i) Community Service courses consist of single courses, each complete in itself, that focus on an individual's personal or leisure needs rather than occupational or professional employment.
- (ii) The cultural and civic, and visiting artist component of this program meets community needs through lecture and concert series, art shows, the use of college facilities by community groups, providing speakers to community organizations, and providing visiting artist activities for college communities. Visiting artists may be provided an opportunity to work as artists in residence to enhance local arts resources and promote the various visual, performing and literary arts in communities throughout North Carolina.

(c) Self-Supporting Programs:

- (i) A self-supporting course is not reported to the state for budget FTE since the cost of conducting the course is paid by students enrolled.
- (ii) Recreational programs are self-supporting courses which the college may provide at the request of the community but for which the college receives no budgetary credit. Funds appropriated as operating expenses for allocation to the colleges shall not be used to support recreation courses. The financing of these courses by a college shall be on a self-supporting basis, and membership hours produced from these activities shall not be counted when computing full-time equivalent students for use in budget-funding formulas at the state level.

(d) Basic Skills Programs. The State Board and the community college system shall encourage persons to complete high school rather than seek testing for the High School Diploma Equivalency.

- (i) High School Equivalency programs consist of classroom instruction, learning laboratory courses, or a combination of activities designed to qualify a student for an adult high school diploma. An Agreement of Affiliation with a local

public school system is required for minors sixteen or seventeen years old. No agreement is required for adults eighteen years old and older.

- (ii) General Educational Development (GED) testing programs consist of classroom instruction, or learning laboratory courses, or a combination of both designed to qualify a student to demonstrate competency on the General Educational Development (GED) tests and to receive a High School Diploma equivalency from the State Board. The State Board is responsible for the administration of the General Educational Development testing program in cooperation with the Office on Educational Credit of the American Council on Education. The procedures regulating the GED Testing Program set forth in the GED Examiner's Manual published by the General Educational Development Testing Service of the American Council on Education are hereby incorporated by reference. A copy of this manual is available for inspection in the Office of the System President, Community College System Office, 200 W. Jones Street, Raleigh NC 27603-1379. A copy of this manual may be obtained at a cost of fifteen dollars (\$15.00) from the GED Testing Service of the American Council on Education, One Dupont Circle NW, Suite 250, Washington, DC 20036-1163.
- (iii) The Adult Basic Education (ABE) program is designed for adults who are functioning at or below the eighth grade educational level. The major objectives of the program are to enable adults to acquire the basic educational skills necessary to be fully competent in our society, to improve their ability to benefit from occupational training and to have greater opportunities for more productive and profitable employment, and to meet their own objectives for enrolling in the program. Classes are offered and focus on fundamental skills such as reading, writing, speaking, computing, critical thinking, and problem solving.
- (iv) The English as a Second Language (ESL) program offers classes which accommodate the varied needs of the immigrant and refugee populations. Attention is given to both the cultural and linguistic needs as instruction is focused upon the formation of accurate, appropriate communication skills and

upon the student's ability to function in the adult American community. Classes are offered at the beginning through the advanced levels of ESL. The curriculum is designed to develop the basic language skills of reading, writing, speaking, and listening. Instruction integrates the English language with topics that prepare students for everyday life, employment, and citizenship.

(v) The Compensatory Education (CED) program is designed for adults with mental retardation. The program is highly individualized and fosters a maximum level of independent living commensurate with personal ability. Instruction is offered in math, language, social science, health, community living, consumer education and vocational education.

(e) Customized Training Program.

(i) The Customized Training Program addresses company-specific training customized for job growth, technology investment, or productivity enhancement. Based on needs specified in G.S. 115D-5.1, Customized Training Programs shall address job-specific training.

(ii) The Small Business Center program provides training, counseling and referral services especially designed in content and delivery modes for small businesses, both existing and prospective.

(f) The Human Resources Development (HRD) program provides skill assessment services, employability skills training, and career development counseling to unemployed and underemployed adults. These courses shall address six core components as follows:

(i) assessment of an individual's assets and limitations;

(ii) development of a positive self-concept;

(iii) development of employability skills;

(iv) development of communication skills;

(v) development of problem-solving skills; and

(vi) awareness of the impact of information technology in the workplace.

(g) The Learning Laboratory programs consist of self-instruction using programmed texts, audio visual equipment, and other self-instructional materials. A learning

laboratory coordinator has the function of bringing the instructional media and the student together on the basis of objective and subjective evaluation and of counseling, supervising, and encouraging persons working in the lab.

1D SBCCC 200.94 BASIC SKILLS PLAN

Reserved for Future Codification

1D SBCCC 200.95 EDUCATION SERVICES FOR MINORS

- (a) The major purpose of community colleges is to serve students who have graduated from high school or are beyond the compulsory age limit of the public school and have left public school. However, a minor may seek admission to a community college subject to the conditions in this Section.
- (b) Drop-out. A minor, 16 years old or older, who is not currently enrolled in a public or private educational agency may be admitted to a Basic Skills or Continuing Education program at a college if a North Carolina local public or private educational agency, where the minor now resides, determines that admission to a Basic Skills or Continuing Education program is the best educational option for the student and the admission of the student to a Basic Skills or Continuing Education program is approved by the college under one of the following conditions:
- (1) If the minor, 16 years old or older, has officially withdrawn from a public or private educational agency within the last six months, a college may admit the minor to a Basic Skills or Continuing Education program if the minor obtains a signed official withdrawal form from the local public or private educational agency and a notarized petition of the minor's parent, legal guardian, or other person or agency having legal custody and control. The petition shall certify the minor's residence, date of birth, date of leaving school, name of last school attended, and the petitioner's legal relationship to the minor.

(2) If the minor, 16 years old or older, has officially withdrawn from a public or private educational agency for at least six months, a college may admit the minor to a Basic Skills or Continuing Education program without the release form from the public or private educational agency. However, the minor must obtain a notarized petition of the minor's parent, legal guardian, or other person or agency having legal custody and control. The petition shall certify the minor's residence, date of birth, date of leaving school, name of last school attended, and the petitioner's legal relationship to the minor.

(3) If the minor is an emancipated minor, the requirement for the release form from the public or private educational agency and the requirement for the notarized petition are waived. The minor must provide legal documentation of emancipation. Admission requirements for an emancipated minor shall be the same as for an applicant 18 years old or older.

(c) Concurrent Enrollment. Concurrent enrollment allows a high school student to be enrolled in high school and in a local institution of higher education at the same time. A high school student, 16 years old or older, based upon policies approved by the local public or private board of education and board of trustees, may be admitted to any curriculum course one hundred level and above or any continuing education course, except adult basic skills, concurrently under the following conditions:

(1) Upon recommendation of the chief administrative school officer and approval of the president of the college;

(2) Upon approval of the student's program by the chief administrative school officer and the president of the college; and

(3) Upon certification by the chief administrative school officer that the student is taking the equivalent of one-half of a full-time schedule and is making progress toward graduation.

(d) High school students, taking courses pursuant to Paragraph (c) of this Rule, shall not displace adults but may be admitted during any term on a space-available basis to any curriculum course one hundred level and above or any continuing education course, except adult basic skills. Once admitted, they shall be treated the same as all other students.

(e) Huskins. Huskins programs enrich high school students by providing college level academic, technical, and advanced vocational courses to high school students that would not otherwise be available to them. Local boards of trustees and local school boards may establish cooperative programs in areas they serve in order to provide college courses to high school students. 1D SBCCC 200.99 DRIVERS' ELIGIBILITY CERTIFICATE

- (a) Local Boards of Trustees shall be responsible for the issuance of driving eligibility certificates, the timely reporting of dropouts and students unable to make progress toward graduation, and the provision of grievance procedures associated with the

issuance of driving eligibility certificates. Local Boards of Trustees shall provide a program which meets the following requirements:

(1) The president or the president's designee shall issue a driving eligibility certificate if it is determined that:

(A) The student seeking the certificate is currently enrolled in a basic skills program and is making progress toward obtaining a high school diploma or its equivalent. Making progress toward obtaining a high school diploma for a person enrolled in a community college basic skills program is defined as:

(i) Attending a basic skills class a minimum of sixty hours per month for a period of six consecutive months; and

(I) Demonstrating progress in GED at the end of each six month period by passing a minimum of two GED tests with a score of 40 or higher.

(II) Demonstrating progress in Adult High School at the end of each six month period by passing a minimum of two Adult High School units.

(III) Demonstrating progress in Adult Basic Education or English as a Second Language at the end of each six month period by one of the following: increase scores on each subsequent standardized test or make progress as documented by teacher assessment.

(ii) If a student does not meet the criteria for making progress and attendance during any month, the president or the president's designee shall notify the Division of Motor Vehicles the following month that the student no longer meets the requirements for the driving eligibility certificate.

(B) A substantial hardship would be placed on the person seeking the certificate or the person's family if the person does not receive the certificate. Examples of a substantial hardship include:

(i) A parent's inability to drive due to sickness or other impairment and the student is the only person of driving age in the household.

(ii) The student requires transportation to and from a job that is necessary to the welfare of his family and is unable by any other means to do so.

(C) The person seeking the certificate cannot make progress toward obtaining a high school diploma or its equivalent. The president or the president's

designee shall determine, along with input from other basic skills staff, if a student is unable to make progress toward obtaining a high school diploma or its equivalent.

(2) The President or his designee shall not issue a driving eligibility certificate if it is determined that either after the first day of July before the school year which the student enrolled in the eighth grade or after the student's fourteenth birthday, whichever event occurred first, the student was subjected to disciplinary action as defined in this Subparagraph for any of the enumerated conduct as defined in this Subparagraph. Disciplinary action is defined as:

(A) An expulsion;

(B) Suspension for more than ten consecutive days; or

(C) An assignment to an alternative educational setting for more than ten consecutive days, which resulted from any of the enumerated conduct.

Enumerated conduct is defined as:

(i) The possession or sale of an alcoholic beverage or an illegal controlled substance on school property.

(ii) The possession or use on school property of a weapon or firearm that resulted in disciplinary action under G.S. 115C-391(d1), or that could have resulted in that disciplinary action if the conduct had occurred in a public school.

(iii) The physical assault on a teacher or other school personnel on school property

(3) A student who was ineligible for a certificate under Subparagraph (a)(2) of this Rule, is eligible for a certificate when the president or president's designee determines that the student has exhausted all administrative appeals connected to the disciplinary action and that one of the following conditions is met:

(A) The conduct which resulted in the disciplinary action occurred before the student reached the age of 15, and the student is now at least 16 years old.

(B) The conduct which resulted in the disciplinary action occurred before the student reached the age of 15, and at least one year has passed since the

student exhausted all administrative appeals connected to the disciplinary action.

(C) The student needs the certificate in order to drive to and from school, a drug or alcohol treatment counseling program, or a mental health treatment program, and no other transportation is available.

(4) A student who was ineligible for a certificate under Subparagraph (a)(2) of this Rule may otherwise be eligible for a certificate if, after six months from the date of the ineligibility, the president or the president's designee determines that:

(A) The student has displayed exemplary behavior; or

(B) The ineligibility was based on a disciplinary action for the possession or sale of an alcoholic beverage or a controlled substance on school property and the president or the president's designee determines that the student has attended and successfully completed a drug or alcohol treatment program.

(i) Exemplary behavior is defined as the student having no further incidents of misconduct where expulsion, suspension, or an assignment to an alternative educational setting is required.

(ii) Attending and successfully completing a drug or alcohol treatment program is defined as a minimum of 12 hours of drug or alcohol treatment counseling or a mental health treatment program. In addition, the treatment counseling program shall have a strong parental involvement focus.

(b) Any person denied a driving eligibility certificate may appeal that decision through the college's student grievance procedure.

(c) The president or the president's designee shall notify the Division of Motor Vehicles when a student is no longer exhibiting exemplary behavior or attending and successfully completing a drug or alcohol treatment program as determined above, or when a student officially drops out of school. The president's designee shall be the Basic Skills Director.

(1) The State Board shall provide to the Basic Skills Director a form for students to provide their written irrevocable consent for a community college to disclose to the Division of Motor Vehicles that the student no longer meets the conditions for

a driving eligibility certificate under subparagraphs (a)(1) through (a)(4) of this Rule.

- (2) This form shall only identify the student, and under which Subsection of this Rule the student is no longer eligible. No other details or information concerning the student's school record shall be released pursuant to this request.

SUBCHAPTER 400. CURRICULUM

1D SBCCC 400.1 CURRICULUM DEFINITIONS

Reserved for Future Codification

1D SBCCC 400.2 Admission to Colleges

- (a) Each college shall maintain an open-door admission policy to all applicants who are legal residents of the United States and who are either high school graduates or are at least 18 years of age. Community colleges shall not solicit or use information regarding the accreditation of a secondary school located in North Carolina that a person attended as a factor affecting admission to the college or to any program of study, loans, scholarships, or other educational activity at the community college, unless the accreditation was conducted by a State agency. For purposes of this Section, the term "accreditation" shall include certification or any other similar approval process. Student admission processing and placement determination shall be performed by the officials of each college. Admission requirements for an emancipated minor shall be the same as for an applicant 18 years old or older. Provisions with respect to admission of minors are set forth in 1D SBCCC 200.95 and 1D SBCCC 300.99.
- (b) For the purposes of this Section, "undocumented immigrant" means any immigrant who is not lawfully present in the United States. Community colleges shall admit undocumented immigrants under the following conditions:

- (1) Community colleges shall admit an undocumented immigrant only if he or she attended and graduated from a United States public high school, private high school, or home school that operates in compliance with State or local law;
 - (2) When determining who is an undocumented immigrant, community colleges shall use federal immigration classifications;
 - (3) Undocumented immigrants admitted under Subparagraph (b)(1) of this Rule must comply with all federal and state laws concerning financial aid;
 - (4) An undocumented immigrant admitted under Subparagraph (b)(1) of this Rule shall not be considered a North Carolina resident for tuition purposes. All undocumented immigrants admitted under Subparagraph (b)(1) of this Rule must be charged out of state tuition whether or not they reside in North Carolina;
 - (5) When considering whether to admit an undocumented immigrant into a specific program of study, community colleges shall take into account that federal law prohibits states from granting professional licenses to undocumented immigrants; and
 - (6) Students lawfully present in the United States shall have priority over any undocumented immigrant in any class or program of study when capacity limitations exist.
- (c) Boards of trustees may adopt policies regulating admission and graduation of students enrolled in courses mandated under G.S. 17C, North Carolina Criminal Justice Education and Training Standards Commission, or G.S. 17E, North Carolina Sheriffs' Education and Training Standards Commission. These policies may limit enrollment to law enforcement officers or persons sponsored by law enforcement agencies and may require a student to maintain sponsorship by a law enforcement agency until completion of the program. Policies adopted pursuant to this Paragraph shall be published and made available to students and prospective students.
- (d) Any college suspending or expelling a student for non-academic disciplinary purposes shall record the suspension or expulsion in the student's educational record. Upon receipt of a written request signed by the student and subject to all applicable privacy laws, each college shall, in accordance with the student's request, inform other colleges and universities of the term and circumstances of the student's

non-academic disciplinary suspension or expulsion, if any. Boards of trustees may adopt policies refusing admission to any applicant during any period of time that the student is suspended or expelled from any other educational entity.

- (e) Boards of trustees may adopt policies refusing admission to any applicant if it is necessary to protect the safety of the applicant or other individuals. When making a safety determination, colleges may refuse admission to an applicant when there is an articulable, imminent, and significant threat to the applicant or other individuals. Colleges refusing admission on the basis of a safety threat shall document the following:
 - (1) Detailed facts supporting the rationale for denying admission;
 - (2) The time period within which the refusal to admit shall be applicable and the supporting rationale for the designated time period; and
 - (3) The conditions upon which the applicant that is refused would be eligible to be admitted.
- (f) Boards of trustees shall implement an appeals process for applicants denied admission pursuant to either Subsection (e) or denied enrollment pursuant to Subsection (h) of this Section.
- (g) Boards of trustees may adopt policies refusing admission to any applicant who is not a resident of North Carolina who seeks enrollment in any distance education course only if that applicant resides in a State where the college is not authorized to provide distance education in that State.
- (h) Except for courses governed by subsection (c) above, if a community college has a program or develops a program that requires students to possess a firearm, that board of trustees shall adopt local policies requiring proof of eligibility to possess firearms to be enrolled in such program. For the purposes of this Section, “firearms” shall have the same definition as G.S. 14-409.39(2). For the purposes of this Section, proof of eligibility shall include:
 - (1) Any current, valid State-issued permit to purchase a firearm;
 - (2) A current, valid State-issued concealed carry permit from North Carolina;
 - (3) A current, valid State-issued concealed carry permit from a state with a reciprocal concealed carry agreement with North Carolina;

- (4) Proof of an exemption from permit requirements pursuant to G.S. 14-415.25; or

1D SBCCC 400.3 PROGRAM CLASSIFICATION

The following criteria are used for classifying the programs offered in the North Carolina Community College System.

(1) Curriculum Programs:

- (a) A curriculum program is an organized sequence of courses leading to an associate degree, a diploma, or a certificate. All curriculum programs are designed to provide education, training, or retraining for the work force.
 - (i) Associate degree programs are planned programs of study culminating in an associate in applied science, associate in arts, associate in fine arts, associate in science, or associate in general education degree.
 - (A) The associate in applied science degree programs are designed to prepare individuals for employment. These programs involve the application of scientific principles in research, design, development, production, distribution, or service.
 - (B) The associate in arts, associate in science, and associate in fine arts degree programs are designed to prepare students for transfer at the junior level to institutions offering baccalaureate degrees.
 - (C) The associate in general education degree programs are designed for students who desire a general liberal arts education.

(ii) The diploma programs are designed to provide entry-level employment training. A diploma program may be a stand-alone curriculum program title, or a college may award a diploma under the college's associate in applied science degree curriculum program for a series of courses taken from the program of study and structured so that a student may complete additional non-duplicative coursework to receive an associate in applied science degree.

(iii) The certificate programs are designed to lead to employment or to provide skills upgrading or retraining for individuals already in the workforce. A certificate program may be a stand-alone curriculum program title, or a college may award a certificate under the college's associate degree or diploma curriculum program for a series of courses taken from the program of study.

(b) Developmental Education programs consist of courses and support services which include diagnostic assessment and placement, tutoring, advising, and writing assistance. These programs are designed to address academic preparedness, workforce retraining, development of general and discipline-specific learning strategies, and affective barriers to learning. Developmental courses do not earn credit toward a degree, diploma, or certificate.

(2) Continuing Education Programs:

(a) Occupational Extension courses consist of single courses, each complete in itself, designed for the specific purposes of training an individual for full- or part-time employment, upgrading the skills of persons presently employed, and retraining others for new employment in occupational fields.

(b) Community Service:

(i) Community Service courses consist of single courses, each complete in itself, that focus on an individual's personal or leisure needs rather than occupational or professional employment.

(ii) The cultural and civic, and visiting artist component of this program meets community needs through lecture and concert series, art shows, the use of college facilities by community groups, providing speakers to community

organizations, and providing visiting artist activities for college communities. Visiting artists may be provided an opportunity to work as artists in residence to enhance local arts resources and promote the various visual, performing and literary arts in communities throughout North Carolina.

(c) Self-Supporting Programs:

- (i) A self-supporting course is not reported to the state for budget FTE since the cost of conducting the course is paid by students enrolled.
- (ii) Recreational programs are self-supporting courses which the college may provide at the request of the community but for which the college receives no budgetary credit. Funds appropriated as operating expenses for allocation to the colleges shall not be used to support recreation courses. The financing of these courses by a college shall be on a self-supporting basis, and membership hours produced from these activities shall not be counted when computing full-time equivalent students for use in budget-funding formulas at the state level.

(d) Basic Skills Programs. The State Board and the community college system shall encourage persons to complete high school rather than seek testing for the High School Diploma Equivalency.

- (i) High School Equivalency programs consist of classroom instruction, learning laboratory courses, or a combination of activities designed to qualify a student for an adult high school diploma. An Agreement of Affiliation with a local public school system is required for minors sixteen or seventeen years old. No agreement is required for adults eighteen years old and older.
- (ii) General Educational Development (GED) testing programs consist of classroom instruction, or learning laboratory courses, or a combination of both designed to qualify a student to demonstrate competency on the General Educational Development (GED) tests and to receive a High School Diploma equivalency from the State Board. The State Board is responsible for the administration of the General Educational Development testing program in cooperation with the Office on Educational Credit of the American Council on Education. The procedures regulating the GED Testing Program set forth in

the GED Examiner's Manual published by the General Educational Development Testing Service of the American Council on Education are hereby incorporated by reference. A copy of this manual is available for inspection in the Office of the System President, Community College System Office, 200 W. Jones Street, Raleigh NC 27603-1379. A copy of this manual may be obtained at a cost of fifteen dollars (\$15.00) from the GED Testing Service of the American Council on Education, One Dupont Circle NW, Suite 250, Washington, DC 20036-1163.

- (iii) The Adult Basic Education (ABE) program is designed for adults who are functioning at or below the eighth grade educational level. The major objectives of the program are to enable adults to acquire the basic educational skills necessary to be fully competent in our society, to improve their ability to benefit from occupational training and to have greater opportunities for more productive and profitable employment, and to meet their own objectives for enrolling in the program. Classes are offered and focus on fundamental skills such as reading, writing, speaking, computing, critical thinking, and problem solving.
- (iv) The English as a Second Language (ESL) program offers classes which accommodate the varied needs of the immigrant and refugee populations. Attention is given to both the cultural and linguistic needs as instruction is focused upon the formation of accurate, appropriate communication skills and upon the student's ability to function in the adult American community. Classes are offered at the beginning through the advanced levels of ESL. The curriculum is designed to develop the basic language skills of reading, writing, speaking, and listening. Instruction integrates the English language with topics that prepare students for everyday life, employment, and citizenship.
- (v) The Compensatory Education (CED) program is designed for adults with mental retardation. The program is highly individualized and fosters a maximum level of independent living commensurate with personal ability.

Instruction is offered in math, language, social science, health, community living, consumer education and vocational education.

(e) Customized Training Program.

(i) The Customized Training Program addresses company-specific training customized for job growth, technology investment, or productivity enhancement. Based on needs specified in G.S. 115D-5.1, Customized Training Programs shall address job-specific training.

(ii) The Small Business Center program provides training, counseling and referral services especially designed in content and delivery modes for small businesses, both existing and prospective.

(f) The Human Resources Development (HRD) program provides skill assessment services, employability skills training, and career development counseling to unemployed and underemployed adults. These courses shall address six core components as follows:

(i) assessment of an individual's assets and limitations;

(ii) development of a positive self-concept;

(iii) development of employability skills;

(iv) development of communication skills;

(v) development of problem-solving skills; and

(vi) awareness of the impact of information technology in the workplace.

(g) The Learning Laboratory programs consist of self-instruction using programmed texts, audio visual equipment, and other self-instructional materials. A learning laboratory coordinator has the function of bringing the instructional media and the student together on the basis of objective and subjective evaluation and of counseling, supervising, and encouraging persons working in the lab.

1D SBCCC 500.1 PROGRAM CLASSIFICATION

The following criteria are used for classifying the programs offered in the North Carolina Community College System.

(1) Curriculum Programs:

- (a) A curriculum program is an organized sequence of courses leading to an associate degree, a diploma, or a certificate. All curriculum programs are designed to provide education, training, or retraining for the work force.

- (i) Associate degree programs are planned programs of study culminating in an associate in applied science, associate in arts, associate in fine arts, associate in science, or associate in general education degree.
 - (A) The associate in applied science degree programs are designed to prepare individuals for employment. These programs involve the application of scientific principles in research, design, development, production, distribution, or service.
 - (B) The associate in arts, associate in science, and associate in fine arts degree programs are designed to prepare students for transfer at the junior level to institutions offering baccalaureate degrees.
 - (C) The associate in general education degree programs are designed for students who desire a general liberal arts education.
 - (ii) The diploma programs are designed to provide entry-level employment training. A diploma program may be a stand-alone curriculum program title, or a college may award a diploma under the college's associate in applied science degree curriculum program for a series of courses taken from the program of study and structured so that a student may complete additional non-duplicative coursework to receive an associate in applied science degree.
 - (iii) The certificate programs are designed to lead to employment or to provide skills upgrading or retraining for individuals already in the workforce. A certificate program may be a stand-alone curriculum program title, or a college may award a certificate under the college's associate degree or diploma curriculum program for a series of courses taken from the program of study.
- (b) Developmental Education programs consist of courses and support services which include diagnostic assessment and placement, tutoring, advising, and writing assistance. These programs are designed to address academic preparedness, workforce retraining, development of general and discipline-specific learning strategies, and affective barriers to learning. Developmental courses do not earn credit toward a degree, diploma, or certificate.

(2) Continuing Education Programs:

(a) Occupational Extension courses consist of single courses, each complete in itself, designed for the specific purposes of training an individual for full- or part-time employment, upgrading the skills of persons presently employed, and retraining others for new employment in occupational fields.

(ii) The cultural and civic, and visiting artist component of this program meets community needs through lecture and concert series, art shows, the use of college facilities by community groups, providing speakers to community organizations, and providing visiting artist activities for college communities. Visiting artists may be provided an opportunity to work as artists in residence to enhance local arts resources and promote the various visual, performing and literary arts in communities throughout North Carolina.

Classes are offered and focus on fundamental skills such as reading, writing, speaking, computing, critical thinking, and problem solving.

(iv) The English as a Second Language (ESL) program offers classes which accommodate the varied needs of the immigrant and refugee populations. Attention is given to both the cultural and linguistic needs as instruction is focused upon the formation of accurate, appropriate communication skills and upon the student's ability to function in the adult American community. 1E SBCCC 200.2 Time Due, Deferred Payment, Failure to Pay

(a) Time Due. If a student registers on or before the first date of a course section, tuition, registration fees, and other fees required for enrollment are due on a specific date prescribed by the college that is on or before the first date of the course section. If a student registers after the first date of the course section, tuition, registration fees, and other fees required for enrollment are due at the time of the student's registration. A student may satisfy the requirement for payment due through one or more of the following four methods:

(1) Directly paying the college.

(2) Demonstrating to the college's satisfaction that the student is eligible for financial aid or other third-party payment.

(3) Entering into a deferred payment plan authorized by 1E SBCCC 200.2(b).

(4) Providing evidence of eligibility for a tuition or registration fee waiver consistent with 1E SBCCC 800.

To ensure tuition receipts are deposited to the credit of the fiscal year in which the Fall academic term occurs, colleges shall begin collecting curriculum tuition payments for the Fall academic term on or after July 1 of that year.

(b) Deferred Payment. The college may, with approval of the board of trustees, prescribe written procedures to permit short-term deferred payment or payment in installments; provided, however, that payment in full is due by the end of the academic term. For the purposes of this section, "short term" is defined as a period that does not extend beyond the last day of the academic term.

(c) Failure to Pay. Unless otherwise prohibited by law, colleges may not enroll or distribute an academic credential to a student with an outstanding balance for tuition or registration fees except under the following circumstances:

- (1) The college anticipates that the outstanding balance will be paid using pending financial aid;
- (2) A person or organization demonstrates to the satisfaction of the college the ability to pay the outstanding obligation and guarantees in writing to pay the balance if the student fails to do so;
- (3) A student is registered in a course section offered for the benefit of a company or agency. For the purpose of this rule, company or agency specific course sections are courses where the company pays the tuition or registration, and courses where attendance in the course section is limited to employees of the company or agency;
- (4) A student is classified as a captive or co-opted student pursuant to 1D SBCCC 700.98(a); or
- (5) A student is registered in a course that is on a specialized course list approved by the State Board of Community Colleges and supports the organizational training needs for entities specified in G.S. 115D-5(b)(2).

Unless otherwise prohibited by law, colleges may withhold transcripts of grades and any other service pending resolution of outstanding monetary obligations. This statement shall not be construed to prohibit a college's board of trustees from adding more stringent provisions that are allowable under law regarding outstanding monetary balances.

SUBCHAPTER 300. CURRICULUM TUITION

1E SBCCC 300.1 Tuition for Curriculum Programs

- (a) Tuition Rates. The State Board shall set a uniform tuition rate per credit hour and a maximum tuition amount per academic term for resident and non-resident students consistent with actions taken by the General Assembly.
- (b) Tuition Required. Colleges are required to charge students tuition to enroll in a curriculum course that earns Budget FTE as described in 1G SBCCC 100.99. Students are required to pay tuition, or have a third-party pay on their behalf, to enroll in a curriculum course, unless waived by law. See also 1E SBCCC Subchapter 800.
- (c) Tuition for Student Enrolled in More than One College. If a student enrolls for the same academic term at two or more community colleges, the student may pay the total amount of tuition and registration fees to the student's "home" college, at the discretion of the "home" college. For the purposes of this section, "home" college means the college in which the student initially enrolls for the academic term. The "home" college shall work with the other college or colleges in which the student is

enrolled to ensure the student is not charged more tuition than the maximum allowed by the State Board for the academic term. Student membership hours as defined in Chapter G for instruction received shall be reported by the college in which the respective instruction occurred.

- (d) Deposit of Tuition. All tuition receipts are State funds. Colleges must deposit all tuition receipts to the credit of the State Treasurer, consistent with State law.

- (a) As provided by G.S. 115D-39(a), community colleges may charge resident tuition rates to nonresident students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment. Prior to enrollment at the resident tuition rate, the nonresident student shall fulfill the following conditions:
- (1) Demonstrate that his or her family moved to this state within the 12 months preceding enrollment;
 - (2) Present a letter to the college from the employer on corporate letterhead stating that the employee, through whom the student claims this benefit, relocated to this state for employment with that business, industry, or military establishment;
 - (3) Present proof of his or her familial relationship with the employee, unless the student is the employee;
 - (4) Present proof that the student lives in the same house with the employee, unless the student is the employee;
 - (5) Present proof that the student is financially dependent on the employee through which the student claims this benefit, unless the student is the employee; and
 - (6) Comply with the requirements of the Selective Service System, if applicable.
- (b) The number of students at a college eligible for resident tuition under this Rule in a given academic year shall not exceed one percent of the average number of nonresident students, rounded up to the next whole number, enrolled at the college

during the preceding academic year. If a college charges resident tuition to students eligible under this section, eligible students shall be granted this benefit on a first-come, first-served basis.

- (c) Each local board of trustees shall adopt and publish a written policy specifying whether the college will charge resident tuition rates to nonresident students who satisfy the provisions of this section. If a local board of trustees adopts a policy that allows the college to charge resident tuition rates to nonresident students who satisfy the provisions of this section in some instances and not in others, the local board of trustees' policy shall specify the factors the college will use to determine when to grant the resident tuition rate and when to deny the resident tuition rate.

SUBCHAPTER 600. SELF-SUPPORTING COURSE SECTIONS

1E SBCCC 600.1 Definitions

The following definitions apply to this Subchapter:

- (a) “Direct costs” - The costs required to provide an instructional course section. Examples of direct costs include, but are not limited to, instructor salaries and salary-related benefits (i.e. retirement contributions, health insurance, etc.), travel to and from the instructional site, course curriculum development costs, instructional supplies, equipment, building rental, insurance, advertising, printing, postage, mailing costs, and any other costs specifically related to the course section. Refreshments and meals may be included as a direct cost if disclosed to potential students prior to the start of the course section.
- (b) “Indirect costs” – The costs associated with activities and services that support instruction, but which cannot be exclusively assigned to a course section. Examples

of indirect costs include, but are not limited to, student services, administrative costs, utilities, custodial services, and security services, which cannot be exclusively assigned to a course section.

- (c) "Self-supporting" - Funding the direct and indirect costs of a course or set of courses through receipts collected from students or from a third-party on behalf of students enrolled in the course or set of courses.

1E SBCCC 600.2 Authority to Charge Self-supporting Fees

- (a) Authority to Charge. Colleges are authorized to offer curriculum and continuing education course sections on a self-supporting basis and charge self-supporting fees to students who enroll in self-supporting course sections.
- (b) Local Policy. The board of trustees shall adopt a policy regulating self-supporting activities prior to a college offering self-supporting course sections. This policy shall include, at minimum, the following elements:
 - (1) The method the college must use to determine self-supporting fee rates, and
 - (2) The permissible uses of excess funds generated from self-supporting activities.

1E SBCCC 600.3 Self-supporting Fee Rates

- (a) A college shall set all self-supporting fees consistent with the policy adopted by its board of trustees. A college may adopt different self-supporting fees for different courses and activities, subject to the limitations established by this subsection.
- (b) Curriculum Self-Supporting Fee Rates: Colleges shall determine self-supporting fees for curriculum courses using one of the following two methods of calculation:
 - (1) Pro-rata Share Method. The amount charged to each student shall approximate the pro-rata share of the direct and indirect costs associated with providing self-

supporting instruction. Unless the college can demonstrate a need for a higher rate, a college may estimate indirect costs by applying its federal indirect cost rate or a rate up to 25%, whichever is higher, to the direct costs of providing the self-supporting activity. The amount charged to the student shall be calculated based on either 1) the estimated costs of an individual self-supporting course section divided by the number of students expected to enroll in the course section or 2) the estimated costs of a set of self-supporting course sections divided by the number of students expected to enroll in the set of course sections. Each student must pay the self-supporting fee even if the sum of the curriculum tuition and self-supporting fees charged to the student for the academic term exceeds the maximum tuition rate set by the State Board and academic term.

(2) Transparent Rate Method. The college shall charge each student an amount consistent with the curriculum tuition rate based on residency status. The transparent rate method shall only be used if the receipts generated through this method can adequately support the direct and indirect costs of the self-supporting instruction.

(c) Continuing Education Self-Supporting Fee Rates: Colleges shall set self-supporting fees for continuing education course sections at a level at or below the local market rate for the type of continuing education instruction provided.

History Note: Authority G.S. 115D-5; G.S. 115D-39;

Eff. [May 16, 2014](#).

1E SBCCC 600.4 Deposit and Use of Self-supporting Fees

(a) Deposit of Self-Supporting Fees. Colleges shall deposit self-supporting fee receipts in an institutional unrestricted general ledger account. Any course section initially designated as self-supporting cannot be changed to a State-funded designation after the college collects any receipts for the course section.

(b) Use of Self-Supporting Fee Receipts. Self-supporting fee receipts shall be used to support the direct and indirect costs of the self-supporting course sections. Colleges shall not use state funds for direct costs of self-supporting course sections. If a full-

time faculty member teaches a self-supporting course section, colleges shall either 1) pro-rate the faculty salary based on the time allocated between state-funded and self-supporting course sections in the faculty member's course load, or 2) reimburse State funds an amount equal to the number of instructional hours associated with self-supporting course section multiplied by the instructor's hourly rate of pay.

- (c) Excess Receipts. If self-supporting receipts exceed expenditures for the fiscal year, colleges shall use excess receipts to either support the costs of future self-supporting course sections or to support costs authorized by 1E SBCCC 700.7.

(3) Impermissible expenses: Colleges shall not use student activity fee receipts to support personnel and other operating costs related to college employees having positions that are the fiscal responsibility of the State or local governments and do not directly support student activities, including, but not limited to, academic advisors, counselors, recruiters, admissions staff, and security personnel.

Colleges shall not use student activity fee receipts for capital improvements projects constructed for purposes other than student activities.

However, subject to the prior approval of the SBCC, local boards of trustees have the authority to establish an instructional technology fee that exceeds the \$48 per academic term for curriculum students. Instructional technology fees shall not be charged to individuals who participate only in meetings or seminars.
- (b) Use of Fee Receipts. Instructional technology fee receipts shall be used to support costs of procuring, maintaining, and operating instructional technology, including both information technology (hardware and software) used primarily for instructional purposes and specialized instructional equipment necessary for hands-on instruction. Colleges are authorized to use instructional technology fee receipts to hire support positions to operate, maintain, and repair this technology, as well as buy the necessary supplies and materials for operations. - (a) Authority to waive. Colleges shall waive tuition and registration fees for eligible training provided to members of groups and organizations that are expressly authorized by law. The waiver of local fees shall be governed by local boards of trustees.
- (b) Admission Requirements. Persons in an authorized group or organization must meet the same admission requirements as students that are not in an authorized group to enroll in courses for which the student is eligible for a waiver.
- (c) Proof of Eligibility. To obtain a waiver, individuals must establish proof of eligibility as a member of an authorized group or organization. To be eligible for a tuition or registration fee waiver, trainees enrolled in Basic Law Enforcement Training (BLET) courses must obtain a letter of sponsorship from a state, county, or municipal law enforcement agency prior to enrollment and uphold the terms of the sponsorship until completion of the BLET course. The college must maintain documentation of the sponsorship on file.
- (d) Reporting FTE: Unless otherwise prohibited by law, students eligible for an authorized waiver shall be counted in the computation of enrollment for funding purposes (BFTE) in a manner consistent with non-waived students, assuming all applicable reporting requirements are met.
- (e) Self-Supporting Courses: Community colleges shall not grant tuition and registration fee waivers to students enrolled in self-supporting courses. The

community college shall charge the student the self-supporting fee or use institutional funds to pay for the self-supporting fee on the student's behalf.

- (f) Annual Reporting Requirement. As directed by the System Office, the college shall report the amount of tuition and registration fees waived by the college on behalf of individuals who are members of authorized groups or organizations on an annual basis to the System Office.

SUBCHAPTER 100. FINANCIAL AID

1F SBCCC 100.97 STUDENT LOAN FUNDS FOR VOCATIONAL AND TECHNICAL EDUCATION

- (a) The loan fund shall be held by the State Board and released by the System President of the Department of Community Colleges to meet loan commitments made by the various institutions.
- (b) The Department of Community Colleges shall disseminate information concerning the Student Loan Fund to all chief administrative officers of technical institutes and community colleges, hereinafter referred to as institutions. The Department of Community Colleges shall prepare news releases, brochures, and other publications interpreting the student loan program.

- (c) Applicants for the loans shall be furnished copies of the governing rules adopted by the board. Recipients of loans, by virtue of having complied with all the requirements for receiving aid, shall thereby be acknowledging their agreement to abide by the purpose of the fund and the rules prescribed by the board. Each institution is responsible for administering the fund and for making and collecting the loans. Periodically, as determined by the System President of the Department of Community Colleges and the State Board, collections on the loans shall be transmitted to the State Board. The institution, through a student loan committee, shall be responsible for the selection of those candidates to be recipients of student loans.
- (d) The System President of the Department of Community Colleges shall request institutions to furnish his office with appropriate enrollment verification that recipients of student loans are full-time students, and other necessary reports and information for proper records and control of total program.
- (e) The State Board shall have authority to revoke any loan if and when it should be determined that:
- (1) The information submitted in support of the application was willfully reported erroneously or incompletely; or
 - (2) The student is not pursuing his work satisfactorily.
- (f) It shall be the responsibility of the loan recipients to keep the chief administrative officers of institutions informed of any change in address, status, or employment.
- (g) Recipients of student loans may be granted financial assistance of not more than three hundred dollars (\$300.00) per academic school year. The number of loans shall be determined by the demand and the availability of funds.
- (h) Recipients of student loans shall execute promissory notes on forms approved by the Attorney General. All student loans shall be evidenced by said notes, approved by and made payable to the institution granting the loan, which shall bear interest at the rate of three and one-half percent per annum. Repayment of such principal together with accrued interest thereon, shall be made over a minimum of five-year repayment period, commencing one year after the maker of the note ceases to be a full-time student in an institution and ending six years after such date. Interest shall

accrue from the beginning of such repayment period. In the event the loan recipient acquires a disability as defined in the North Carolina Workers' Compensation Act, or dies, the unpaid indebtedness shall be canceled. In the event a loan recipient fails to maintain a "c" average or permanently withdraws from the institution, the entire indebtedness shall become due payable, with interest commencing on that date.

- (i) Each candidate for a loan must:
 - (1) be a resident of North Carolina and be or expect to be a full-time student of the approved institution as defined by the State Department of Community Colleges;
 - (2) declare that he is in need of financial aid to continue his studies as evidenced by information on furnished forms;
 - (3) apply on forms provided by the State Department of Community Colleges;
 - (4) be approved by the institution student loan committee;
 - (5) use the proceeds of the loan only for the payment of tuition and required fees, institutional equipment, materials, and books, board and room, and similar living expenses.
- (j) Applications shall be submitted to the chief administrative officers of institutions on forms prescribed and supplied by the System President of the Department of Community Colleges. Additional forms essential to the operation of the Student Loan Fund may be developed in the discretion of the System President of the Department of Community Colleges.

CHAPTER G. FULL-TIME EQUIVALENT (FTE)

SUBCHAPTER 100. OPERATIONAL POLICIES

SUBCHAPTER 100. OPERATIONAL POLICIES

1G SBCCC 100.1 DEFINITIONS

The following terms shall have the following meanings throughout this Title unless the context of a specific rule requires a different interpretation:

(1) Credit Hours:

- (a) Credit of one semester hour is awarded for each 16 hours of "class work." Class work is lecture and other classroom instruction. Class work is under the supervision of an instructor.
- (b) Credit of one semester hour is awarded for each 32 hours of "experiential laboratory work." Experiential laboratory work means instruction given to a student by an instructor to increase the student's knowledge and skills without immediate student application.
- (c) Credit of one semester hour is awarded for each 48 hours of "faculty directed laboratory work." Faculty directed laboratory involves structured and coordinated demonstration by an instructor with immediate student application.
- (d) Credit of one semester hour is awarded for each 48 hours of "clinical practice." Clinical practice is a structured, faculty-directed learning experience in a health sciences program which develops job proficiency. Clinical practice requires significant preparation, coordination, and scheduling by the faculty and is under the supervision of an instructor or preceptor who is qualified for the particular program.
- (e) Credit of one semester hour is awarded for each 160 hours of "work experience" such as cooperative education, practicums, and internships. Work experience involves the development of job skills by providing the student with employment

that is directly related to, and coordinated with, the educational program. Student activity in work experience is planned and coordinated by a college representative, and the employer is responsible for the control and supervision of the student on the job.

- (2) Full-time Student means a student enrolled in 12 or more credit hours. For the summer session, Full-time Student means a student enrolled in nine or more credit hours.
- (3) Part-time Student means a student enrolled in less than 12 credit hours.
- (4) FTE means one full-time equivalent (FTE) student or 256 student membership hours per semester (based on a typical semester of 16 weeks x 16 student membership hours per week).
- (5) Student Membership Hour means one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour.
- (6) Annual Curriculum FTE means the total of the student hours in membership for fall and spring semesters divided by 512 (256 student hours per semester x 2).
- (7) Annual Continuing Education (non-credit) FTE means the total of the student hours in membership for the three reporting periods divided by 688 (based on two typical semesters of 16 weeks and a typical summer term of 11 weeks). The three reporting periods are fall semester, spring semester, and the summer term.
- (8) Budget Full-time Equivalent (B/FTE). B/FTE means the number of FTE which determines a college's operating budget.
- (9) College means any institution established pursuant to G.S. 115D except for the N. C. Center for Textile Technology.

1G SBCCC 100.98 RESERVED FOR FUTURE CODIFICATION

1G SBCCC 100.99 BUDGET FTE FUNDING

- (a) All student membership hours generated by the college for a given class shall be counted for budget FTE purposes provided 100 percent of the instructional cost is paid from college funds (funds budgeted through the college's budget including State Current, County Current, or College Funds). These provisions apply to all instructional contracts which generate budget FTE including Basic Skills classes. For purpose of this Rule, instructional cost includes the salary of the instructor(s) as well as fringe benefits, supplies, materials, and travel paid from college funds. College-sponsored instruction shall not supplant existing training which may take place without the college's involvement. Following are Rule applications:
- (1) A company or entity may reimburse the college for a given class up to 50 percent of the instructional cost. The student hours in membership generated in the class may be reported for budget FTE. If the college is reimbursed for more than 50 percent of the instructional cost for a given class, student hours in membership reported for the class shall be prorated in the same proportion as the college funding. If the college is reimbursed for 100 percent of the instructional cost, the class would be gratis [see Paragraph (b) of this Rule] and no budget FTE would be generated.
 - (2) In cases where a company or entity donates funds to a college with no expectation for instruction in return, these funds shall be treated as college funds and may be used to generate budget FTE.
 - (3) The community college shall not contract with a company or entity to provide training to its current employees.
- (b) Any class for which the instructor's services are provided at no cost or for which the instructional cost is paid totally and directly by an external agency is a "gratis" class. In this situation, the class is reported as self-supporting, and does not generate budget/FTE. If a portion of the class is gratis, student hours shall be prorated accordingly.
- (c) Categorical state allotments to colleges, except literacy and Human Resources Development, such as Small Business, Customized Training Programs, Community

Service, and Block Grants do not earn budget/FTE and are not subject to the provisions of this Rule.

SUBCHAPTER 200. FTE REPORTING CATEGORIES/CRITERIA

1G SBCCC 200.93 REPORTING OF STUDENT HOURS IN MEMBERSHIP FOR CURRICULUM CLASSES

- (a) Academic Semester. The academic semester for all credit courses shall be designed so that all classes may be scheduled to include the number of instructional hours shown in the college catalog and the approved curriculum program of study compliance document and reported for FTE purposes (see 1D SBCCC 400.95(a) and 1H SBCCC 200.87(a)(3)). Instructional hours include scheduled class and laboratory sessions as well as examination sessions. Length of semesters or courses may vary as long as credit hours are assigned consistent with 1G SBCCC 100.1 and as long as membership hours are reported consistent with the other provisions of this Rule. Also, note 1G SBCCC 200.99 which identifies the reporting periods for submission of Institution Class Reports.
- (b) Regularly Scheduled Classes.
- (1) A class is regularly scheduled if it meets all of the following criteria:
- (A) assigned definite beginning and ending time;

- (B) specific days the class meets is predetermined;
 - (C) specific schedule is included on the Institution Master Schedule or other official college documents;
 - (D) class hours are assigned consistent with college catalog and curriculum standard requirements; and
 - (E) identified class time and dates are the same for all students registered for the class excluding clinical or cooperative work experience;
 - (i) Classes which have a regularly scheduled lecture section and a non regularly scheduled laboratory section shall satisfy this criteria. The census date (10% point) shall be determined from the regularly scheduled portion of the class. Verification of student participation in the laboratory section of the class shall be available for review.
 - (ii) A student shall be considered absent if that student did not attend during the specified times or days the class was scheduled to meet.
- (2) A student shall be considered to be in class membership when the student meets all of the following criteria:
- (A) enrolled as evidenced by payment of the applicable tuition and fees, or obtained a waiver as defined in G.S. 115D 5(b);
 - (B) attended one or more classes prior to or on the 10 percent point in the class;
 - (C) has not withdrawn or dropped the class prior to or on the 10 percent point.
- (3) Definition of a Student Membership Hour. A student membership hour is one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour. A college shall provide sufficient time between classes to accommodate students changing classes. A college shall not report more hours per student than the number of class hours scheduled in the approved curriculum program of study compliance document.
- (4) Calculation of Student Membership Hours for Regularly Scheduled Classes. Student membership hours are obtained by multiplying the number of students in membership at the 10 percent point in the class by the total number of hours the class is scheduled to meet for the semester as stated in the college catalog and

the approved curriculum program of study compliance document (see 1D SBCCC 400.97(4)).

(5) Maintenance of Records of Student Membership Hours. Accurate attendance records shall be maintained for each class through the 10 percent point of the class. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits (see the Public Records Retention & Disposition Schedule for Institutions in the Community College System). Student membership hours shall be summarized in the Institution's Class Report and certified by the president or designee. For classes identified as non traditional delivery (see Subparagraph (e)(1) of this Rule), documentation of student contact prior to the 10 percent point shall be maintained in the same manner as the attendance records mentioned in this Rule.

(c) Non Regularly Scheduled Classes.

(1) A non regularly scheduled class may include any or all of the following:

(A) a class where a definitive beginning and ending time is not determined;

(B) a class offered in a learning laboratory type setting (see 1G SBCCC 200.94(b)(6) for definition of learning laboratory);

(C) a class self paced in that the student progresses through the instructional materials at the student's own pace, and can complete the class as soon as the student has successfully met the educational objectives. Classes offered as independent study are generally offered in this manner;

(D) a class in which a student may enroll during the initial college registration period or in which the student may be permitted to enroll at any time during the semester; or

(E) any class not meeting all criteria for a regularly scheduled class, as shown in Subparagraph (b)(1) of this Rule, is considered to be a non regularly scheduled class for reporting purposes. Classes defined as non traditional (see Paragraph (e) of this Rule) which are identified as a separate student hour reporting category are not subject to the above provisions in Paragraph (c).

- (2) Definition of Student Membership. A student is considered to be in class membership when the student meets the following criteria:
- (A) enrolled as evidenced by payment of the applicable tuition and fees, or obtained a waiver as defined in 1E SBCCC 800.97(a); and
 - (B) attended one or more classes.
- (3) Definition of a Student Contact Hour. For non-regularly scheduled classes, student contact hour is defined as actual time of student attendance in a class or lab. 60 minutes shall constitute an hour. A college shall not report more hours per student than the number of class hours scheduled in the approved curriculum program of study compliance document.
- (4) Calculation of Student Contact Hours for Non Regularly Scheduled Classes. For these classes, actual time of class attendance for each student determined to be in membership shall be reported. Student contact hours for these classes are the sum of all the hours of actual student attendance in a class in a given semester, and shall not exceed the hours in the approved curriculum program of study compliance document. (see 1D SBCCC 400.97(4)).
- (5) Maintenance of Records of Student Contact Hours. Accurate attendance records shall be maintained for each class of the nature described in this Rule through the entire semester. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits (see the Public Records Retention & Disposition Schedule for Institutions in the Community College System). Student contact hours shall be summarized in the Institution's Class Report and certified by the president or designee.
- (d) Skills Laboratory or Computer Tutorial Laboratory. Individualized instructional laboratories are similar to learning laboratories (see 1G SBCCC 200.94(b)(6)) except the participants are curriculum students. Skills labs or computer tutorial labs are remedial or developmental in nature and intended for students who are experiencing academic difficulty in a particular curriculum course. A skills laboratory instructor shall be qualified in the single subject area of the skills laboratory. A computer tutorial laboratory coordinator need not be qualified in any of the subject

area(s) provided in a computer tutorial laboratory. Student contact hours may be reported for budget/FTE when students are required by their instructor to attend either of the laboratories for remedial or developmental work and when the skills laboratory instructors or computer tutorial coordinators are paid with curriculum instructional funds.

(1) Documentation of instructor referral shall be maintained for auditing purposes. Maintain documentation until released by audit.

(2) Homework assignments shall not be reported for budget/FTE. (See 1G SBCCC 200.95(a)).

(3) Calculation of Student Contact Hours for Skills Laboratory or Computer Tutorial Laboratory. For these classes, actual time of class attendance shall be reported; 60 minutes shall constitute an hour. Student hours generated for these types of classes are the sum of all the hours of actual student attendance in a class in a given semester.

(e) Classes Identified as Curriculum Non Traditional Delivery.

(1) Definition. Due to the methodology by which instruction is delivered, non traditional delivery classes are not consistent with the definitions of regularly scheduled or non regularly scheduled classes described in this Rule. Non traditional delivery classes are defined as those classes which are offered through media such as internet, telecourses, videocassette and other electronic media excluding classes offered via the North Carolina Information Highway.

(2) For those classes identified as non traditional delivery, student attendance in class or in an orientation session, submission of a written assignment or submission of an examination, is the basis for the determination of class membership at the 10 percent point of the class. Student membership hours earned in non traditional delivery classes shall be calculated by multiplying the number of students in membership, as defined in the prior sentence, times the number of hours assigned to the class in official college documents. For these classes, the number of hours assigned shall be consistent with the credit hours assigned according to 1G SBCCC 100.1, as well as the curriculum standard.

- (3) Non-traditional instruction delivered is pre-structured into identifiable units. Non traditional delivery classes do not include classes identified as independent study which are not media based.
- (f) Curriculum Student Work Experience and Clinical Practice. The following criteria apply to the reporting guidelines for students enrolled in curriculum work experience and clinical practice courses, exclusive of work station based training. Examples of student work experience include cooperative education, practicums, and internships. Clinical practice refers to work experience in health occupation programs.
- (1) Student membership hours for student work experience and clinical practice shall not generate budget/FTE without prior approval by the System Office for such activities through the appropriate curriculum standard.
- (2) Work Experience. Work experience for curriculum courses shall earn budget/FTE at the 100 percent rate of assigned work experience hours and shall not exceed a maximum of 320 membership hours per student per semester.
- (A) These classes shall be coordinated by college personnel paid with college instructional funds and may be located in one or more sites.
- (B) These classes shall be specified in the approved curriculum of the college consistent with the applicable curriculum standard (see 1D SBCCC 400.97(3)(a)(ii)(D)).
- (C) The college shall maintain documentation of all student work experience hours.
- (3) Clinical Practice. Curriculum clinical practice, as defined in 1G SBCCC 100.1, refers to clinical experience in health occupation programs which shall earn budget/FTE at the 100 percent rate for student membership hours. These classes shall be consistent with the curriculum standards set forth in 1D SBCCC 400.97. The maximum membership hours in a clinical experience which may be reported per student in a given semester is 640. These classes shall be supervised by college instructors who are qualified to teach in the particular program and are paid with college instructional funds. These classes may be located in one or more sites.

1G SBCCC 200.94 REPORTING OF STUDENT HOURS IN MEMBERSHIP FOR CONTINUING EDUCATION CLASSES

(a) Regularly Scheduled Classes.

(1) Definition of Regularly Scheduled Class. A class is considered to be regularly scheduled if it meets all of the following criteria:

(A) Assigned definite beginning and ending time;

(B) Specific predetermined days and time the class meets;

(C) Specific schedule is included on the Institution Master Schedule or other official college documents;

(D) Class hours are assigned consistent with State Board approval and official college documents; and

(E) Identified class time and dates are the same for all students registered for the class excluding clinical or work experience:

(i) Classes which have a regularly scheduled lecture section and a non-regularly scheduled laboratory section will satisfy the criteria. The census date (10% point) shall be determined from the regularly scheduled

portion of the class. Verification of student participation in the laboratory section of the class shall be available for review; or

(ii) A student is considered absent if that student did not attend during the specified times or days the class was scheduled to meet.

(2) Definition of Student Membership. A student is considered to be in class membership when the student meets all of the following criteria:

(A) Enrolled as evidenced by payment of the applicable registration fees, or obtained a waiver as defined in Paragraph (a) of Rule 1E SBCCC 400.99.

(B) Attended one or more classes held prior to or on the 10 percent point in the class; and

(C) Has not withdrawn or dropped the class prior to or on the 10 percent point of the class.

(3) Student Membership Hour. A student membership hour is one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour. A college shall not report more hours per student than the number of class hours scheduled in official college documents. Colleges shall not report more hours per student than the number of hours specified in the instructor's contract.

(4) Calculation of Student Membership Hours for Regularly Scheduled Classes. Student membership hours are obtained by multiplying the number of students in membership at the 10 percent point in the class by the total number of hours the class is scheduled to meet as stated in official college documents.

(5) Maintenance of Records of Student Membership Hours. Accurate attendance records shall be maintained for each class. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits as provided in the Public Records Retention & Disposition Schedule for Institutions in the Community College System. Student membership hours shall be summarized in the Institution's Class Report and certified by the president or designee.

(b) Non-Regularly Scheduled Classes.

- (1) Definition of Non-Regularly Scheduled Class. A non-regularly scheduled class may include any or all of the following:
 - (A) A class where a definitive beginning and ending time is not determined;
 - (B) A class offered in a learning laboratory type setting (see Subparagraph (b)(6) of this Rule for definition of learning laboratory);
 - (C) A self-paced class where the student progresses through the instructional materials at the student's own pace, and can complete the courses as soon as the student has successfully met the educational objectives. Classes offered as independent study are generally offered in this manner;
 - (D) A class in which a student may enroll during the initial college registration period or in which a student may be permitted to enroll at any time during the semester; or
 - (E) Any class not meeting all criteria for a regularly scheduled class as shown in Subparagraph (a)(1) of this Rule, is considered to be a non-regularly scheduled class for reporting purposes. Note classes defined as non-traditional (see Paragraph (c) of this Rule) which are identified as a separate student hour reporting category are not subject to the provisions in Paragraph (b) of this Rule.
- (2) Definition of Student Membership. A student is considered to be in class membership when the student meets the following criteria:
 - (A) Enrolled as evidenced by payment of the applicable registration fees, or obtained a waiver as defined in Paragraph (a) of Rule 1E SBCCC 400.99; and
 - (B) Attended one or more classes.
- (3) Definition of Student Contact Hour. A student contact hour is one hour of student attendance in a class for which the student is in membership as defined in Subparagraph (b)(2) of this Rule. Sixty minutes shall constitute an hour.
- (4) Calculation of Student Contact Hours for Non-Regularly Scheduled Classes. For these classes, actual time of class attendance for each student determined to be in membership shall be reported. Sixty minutes shall constitute an hour. Student

contact hours for these classes are the sum of all the hours of actual student attendance in a class in a given semester.

(5) Maintenance of Records of Student Contact Hours. Accurate attendance records shall be maintained for each class. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits as provided in the Public Records Retention and Disposition Schedule for Institutions in the Community College System. Student membership hours shall be summarized in the Institution Class Report and certified by the president or designee.

(6) Learning Laboratory. Learning laboratory programs consist of self-instruction using programmed text, audio-visual equipment, and other self-instructional materials. A learning laboratory coordinator has the function of bringing the instructional media and the student together on the basis of objective and subjective evaluation and of counseling, supervising, and encouraging persons working in the laboratory. Contact hours shall be calculated as noted in Subparagraph (b)(4) of this Rule.

(c) Classes Identified as Extension Non-Traditional Delivery.

(1) Definition. Due to the methodology by which instruction is delivered, non-traditional delivery classes are not consistent with the definitions of regularly scheduled or non-regularly scheduled classes described in this Rule. Non-traditional delivery classes are defined as those classes which are offered through media such as internet, telecourses, videocassette, and other electronic media excluding classes offered via the North Carolina Information Highway.

(2) For those classes identified as non-traditional delivery, student attendance in class or in an orientation session, submission of a written assignment or a submission of examination is the basis for the determination of class membership at the 10 percent point of the class. Student membership hours in such classes shall be calculated by multiplying the number of students in membership, as defined in the prior sentence, times the number of instructional hours delivered which are determined as follows:

- (A) Determine the number of hours of instruction delivered via non-traditional delivery; and
 - (B) Add the number of hours of class meetings.

Examples of student work experience include cooperative education, practicums, and internships.
- (1) Student membership hours for student work experience and clinical practice shall not generate budget FTE without prior approval of such activities by the System Office. When the number of approved student work experience membership hours increases by more than 30 percent per course, a new request for approval shall be submitted.
 - (2) Work Experience. Work experience for extension courses shall earn budget/FTE at the 100 percent rate for student membership hours, as required by a licensing agency or accrediting body. These classes shall be coordinated by college personnel paid with college instructional funds and may be located in one or more sites.
 - (3) Clinical Practice. Clinical practice, as defined in 1G SBCCC 100.1, refers to clinical experience in health occupation courses which shall earn budget/FTE at the 100 percent rate for student membership hours, as defined in Subparagraph (a)(3) of this Rule, and shall not exceed a licensing agency or accrediting body requirements. These classes shall be supervised by college instructors who are qualified to teach in the particular program and who are paid with college instructional funds. These classes may be located in one or more sites.

SUBCHAPTER 300. INSTITUTIONAL FUNDS

1H SBCCC 300.1 Live Client Projects

(a) Definition. Live client projects are defined as:

- (1) educational programs in which students, as part of their educational experiences and as part of the instructional course requirements, repair or remodel non-college owned personal property or real property; or
- (2) educational programs that construct structures that are sold, produce goods that are sold, or provide services for a fee, such structures, goods or services being the normal and necessary product of learning activities of students.

(b) Local Procedures. If a college elects to engage in live client projects, college management shall adopt procedures for the administration of such projects, consistent with State laws and rules, that include, at minimum, the following elements:

- (1) Definition of criteria that will be used to select project clientele,
- (2) Methodology for determining client charges,
- (3) Management of liability issues for students participating in live projects,
- (4) Assignment of liability for the integrity of the finished product or service, and
- (5) Required administrative approvals prior to beginning a live project.

Colleges shall select clientele and establish client charges through an objective process that prevents private individuals or entities from accruing, from the live client project, benefits a college shows to be unreasonable. Colleges shall not engage in live client projects that repair or remodel property for companies or individuals that are in the business of equipment resale unless the property undergoing repair or remodeling is used in the usual course of the business and is not being resold.

(c) Live Client Project Charges. Colleges are authorized to charge project clientele for goods or services produced through a live client project. In the case of (a)(1) of this Rule, the owner of the property shall supply or pay for all parts required. In the case

of (a)(2) of this rule, the college shall charge all clientele for the value of the goods and services provided through a live customer project. Live client project receipts shall be deposited into an unrestricted institutional account. A college may determine locally whether discrete live client projects are accounted for in separate institutional accounts or in one account used for multiple live client projects.

- (d) Use of Live Client Project Receipts. All costs that otherwise would not have been incurred absent the live client project shall be supported by funds from the institutional account that receives the live client project receipts and shall not be supported from State funds. These costs include, but are not limited to, supplies and materials used in producing the good or service, additional personnel required to serve clients, specialized equipment, liability insurance, and other costs directly related to the live client project as distinguished from an instructional program that does not produce income. In the context of construction live client projects, these costs include, but are not limited to, all building materials, land, land improvements, amounts paid to subcontractors for work not performed by students or employees of the college, any actual interest paid on construction loans or financing arrangements provided for by a partnering third-party entity, and any legal fees and closing costs that may be required. Live client project receipts may also be used to supplement instructional costs of those programs engaging in live client projects. The college shall maintain detailed records so that the college may prepare annual financial statements and a complete audit of the account may be made after the close of the fiscal year.
- (e) Surplus Equipment Live Client Projects. For live client projects that involve the repair of equipment purchased with State funds or federal surplus property, with a subsequent sale as surplus under the rules of the State Division of Purchase and Contract, the proceeds of such sales shall be deposited as a refund of expense to the equipment budget of the college.
- (f) Construction Live Client Projects. For construction live client projects where a permanent building is constructed on the college's campus or on property owned by the college, the board of trustees shall follow all requirements of the General Statutes in acquiring the building materials and any subcontracted work, as well as

in disposing of the building and property. College employees on the permanent payroll of the college are permitted to perform construction or repair work as long as project costs do not exceed the maximum thresholds established in G.S. 143-135. A project cannot be subdivided to evade the provisions of G.S. 143-135.

- (g) Patron Service Live Client Projects. Notwithstanding subsection (d) of this section, a college may use a combination of State funds and live client project receipts to support costs associated with providing services to patrons, such as cosmetology and dental hygiene services.
- (h) Disposition of Discontinued Live Client Project Fund Balance. If a college decides to discontinue a live client project activity, any unexpended funds in the live client project institutional account shall be used for other live client projects or used consistent with the provisions of 1E SBCCC 700.7.

1H SBCCC 300.2 RESERVED FOR FUTURE CODIFICATION

1H SBCCC 300.3 Bookstore and Bookstore Commissions

- (a) Bookstore operations. All financial transactions pertaining to bookstore operations shall be accounted for in a proprietary institutional account and kept separate from all other activities of the college. At least every four years, the board of trustees of each college shall review the college's mark-up on textbooks and other instructional materials sold through the bookstore to determine if the mark-up is appropriately balanced between affordability for students and other priorities identified by the local board of trustees.
- (b) Use of bookstore operating revenues. Bookstore receipts shall first be used to support bookstore operating expenses including, but not limited to salaries and benefits of bookstore personnel, purchase of inventory, marketing, supplies, travel,

equipment associated with the operation of the bookstore, enhancement of the bookstore, and bookstore facility support costs, such as, utilities, housekeeping, maintenance, and security.

(c) Excess bookstore revenues. Receipts in excess of the above operating expenses shall be transferred to the appropriate account and expended consistent with the following provisions:

(1) Funds may be used to support instruction, student support services, student financial aid (e.g. scholarships, grants, loans, Work Study), student refunds, student activities, giveaways to students, curriculum development, program improvement, professional development, instructional equipment, and capital improvements related to facilities associated with the bookstore and student activities.

(2) Funds shall not be used to support any supplemental salary, benefit, or other form of compensation for the college president. Funds shall not be used to support administrative costs, promotional giveaways to individuals other than students, entertainment expenses, fundraising expenses, and capital improvements not allowed under (c)(1) above.

- (b) The State Board of Community Colleges shall not increase a community college's purchasing delegation in any calendar year without the concurrence of the Department of Administration, Division of Purchase and Contract. If the Department of Administration, Division of Purchase and Contract does not respond within 60 days of the State Board of Community Colleges notifying the Department of Administration, Division of Purchase and Contract of a college's request to increase its purchasing delegation, the State Board of Community Colleges may increase a community college's purchasing delegation consistent with Paragraph (d) of this Rule without the concurrence of the Department of Administration, Division of Purchase and Contract.

Tier 1	Tier 2	Tier 3	Tier 4
\$10,000	\$25,000	\$50,000	\$100,000

(B) A college's tier designation placement is based upon its current delegation limit. A college may request an increase in delegation only to the next tier; and

(C) If the State Board approves a college's request for an increase in delegation, the new delegation shall be effective for two years from the effective date of approval. If during this 2 year period the college receives a negative compliance review from the Department of Administration, Division of Purchase and Contract or upon additional investigation, demonstrates the inability to manage the increased delegation, the State Board of Community Colleges at its discretion and in consultation with the Department of Administration, may rescind the new delegation prior to the end of the two years. A college may only request a delegation increase to the next tier after being at the current tier for two years.

(2) Required Documents. When requesting an increase in purchasing delegation, a college shall submit the following hard copy items to the System Office:

The compliance review shall cover a time period during which the college's current lead purchasing agent was in his or her position for at least six months. If any findings are noted in the compliance review report, the college shall provide documentation that the college has corrected all findings by the date the college requests an increase in purchasing delegation. (d) Evaluation Process. The State Board, acting by and through the System Office, will evaluate the following factors before submitting a recommendation to increase the purchasing delegation to the Department of Administration, Division of Purchase and Contract:
